

Who is UCLPartners?

UCLPartners is a leading academic health science partnership. Together, our member organisations form one of the world's leading centres of medical discovery, healthcare innovation and post graduate medical and dental education...

Lead Provider for Education

...As an education lead provider we are responsible for the development of postgraduate medical and dental education across the partnership. Our approach supports the UCLPartners values of being patient led and population focused...

Your development path

...This ensures the development of medical and dental professionals our partnership will need in the future; capable of transforming healthcare by implementing proven innovation in the NHS at scale and pace.

Induction

All trainees attend an induction on UCLPartners and Local Education Providers (LEPs).

Trainees

At any one time there are around 4,000 UCLPartner trainees working at various trusts across 40+ education specialities.

Trainer Development

UCLPartners offers a rigorous programme of education for our faculty.

Professional Development

Training Programme Committees

These offer an opportunity for faculty to network with other specialities.

FEED BACK

Escalation process

If you have an issue, we have a process in place to support you.

Trainee Development

Regional Teaching

Each specialty in the UCLPartners portfolio has some form of regional teaching for our trainees.

Professional Development

UCLPartners offers a unique programme of professional development activities for our trainees.

FEED BACK

Trainee forum

We want to hear from you. Each specialty will have a nominated trainee lead who will attend this forum.

Management process

As an education lead provider UCLPartners has a clear governance structure which is available on our website.
